

Hi All,

Since our update last week, we are pleased to provide you with a further update, which details an earlier completion.

However, to enable the works to be completed sooner than Wednesday 9<sup>th</sup> November as mentioned below, the 24-hour road closure will be required to commence from the end of the working day today. The road closure will commence later today and will remain in place until the end of the working day Friday 4<sup>th</sup> November. This will see the completion of the scheme, with the road and all traffic management being clear for the weekend. Access to busses and taxis will still be allowed through the road closure as previously agreed.

Three-way temporary traffic signals will also be in place from Wednesday to Friday at the Eriswell and Lakenheath roundabout.

We would like to thank you all for your understanding and co-operation throughout the drainage improvement scheme.

Kind regards

**Gemma Allard**
